## KEEPING INVESTIGATION TO U. S. FOREIGN AFFAIRS

WASHINGTON, Dec. 30.—The Democratic  
ators of the Foreign Relations committee are  
collecting evidence in the alleged British in-  
ference of American trade and are preparing for  
keeping investigation into the foreign affairs of  
United States.

The inquiry is instituted by Chairman Stone of  
Foreign Relations committee who will lay the  
and work for a complete investigation should  
for Hoke Smith's resolution authorizing such  
be approved in the Senate. When Con-  
resumes sessions next Tuesday, Senator  
and his followers are ready with an amend-  
to widen the inquiry so that it will cover the  
man activities in this country.

## NOW IN CALIFORNIA; YELLOWSTONE 18 BELOW

SAN BERNARDINO, Dec. 30.—For the first  
in ten years the southern portion of California  
buried under a blanket of snow. The ther-  
meter registered twelve below in Kalispell,  
t., last night, eighteen below in the Yellow-  
National Park, and twenty below in Sas-  
shewan.

### ALLIES SINK DESTROYERS.

PARIS, Dec. 30.—In an engagement between  
Austrian fleet which steamed out from Cattaro,  
the Allied squadron, two Austrian destroyers  
sunk off Durazzo in the Adriatic. The Lika  
a mine and went down in a few minutes and  
Triglav was first disabled and then sunk by one  
the Allied warships. The remaining Austrian  
els escaped after the engagement.

### TURKS RECOVER AMMUNITION.

BERLIN, Dec. 30.—A news dispatch received  
this city states that the Turks are recovering  
quantities of ammunition thrown into the sea  
the English before they evacuated the Suvla and  
front. Everywhere there are signs of a hur-  
and disorganized retreat and unburied lie scat-  
on all sides.

### AUTOMOBILE CRASHES INTO A STREET CAR

ALEXANDER BURDEN, TO SAVE  
PEDESTRIANS, DRIVES HIS MA-  
CHINE INTO STREET CAR—MRS.  
BURDEN CUT AND BRUISED.

A few minutes before 12 o'clock to-  
day, the automobile of Alexander Bur-  
den, of 117 Magnolia street, ran into  
street car number 4 of the Central of  
Florida railway, at the corner of  
Ridgewood and Volusia. The auto  
was occupied by Mr. and Mrs. Burden.  
Two men, one with a bicycle, were  
standing on the crossing and directly  
in the path of the auto. Mr. Burden  
says that he blew his horn twice for  
them to get out of his way, but they  
did not move. The motorman of the  
street car, seeing the auto approach-  
ing, stopped to let it pass. In his  
effort to keep from hurting the men,  
Mr. Burden turned to the right, struck  
one of them and smashed full force  
into the street car. Mrs. Burden was  
thrown forward with considerable  
force and severely cut about the face  
and received a number of body  
bruises. She was taken to Dr. Roy  
Howe's office nearby, where her in-  
juries were attended to. She was af-  
terward taken home. The auto was  
greatly damaged and appears to be  
practically a wreck. The street car  
was struck so forcibly that it was  
compelled to return to the car barn  
for repairs.

### WATER SO LOW THAT BOATS HAVE TROUBLE

CAPTAIN HOWARD OF HOWARD  
LINE SAYS IMPOSSIBLE TO  
MAINTAIN PROPER PASSENGER  
SCHEDULE.

The Howard line will not carry pas-  
sengers on any of its boats until the  
coast line canal is in better condition,  
is the announcement made by Cap-  
tain J. H. Howard, general manager  
of the line.

Captain Howard states that the wa-  
ter in the canal is so low and there  
is so much mud obstruction that it  
is impossible to maintain a schedule  
with any of the boats and as a conse-  
quence the company does not feel  
justified in doing any passenger-carry-  
ing business.

The canal company, Captain How-  
ard says, now has a dredge at work  
south of St. Augustine, and as soon as  
the canal is sufficiently deepened to  
enable boats to make trips with regu-  
larity, the passenger business will be  
resumed by the company.

While the Howard line boats have  
been running with general regularity,  
they are hampered by slow progress  
and inability to carry loads to any-  
where the capacity of the different  
boats.

The Palmto club's annual recep-  
tion will be held next Tuesday evening  
in the clubhouse on Orange avenue.

**WALL STREET BANKERS  
ARE WORKING OVERTIME**  
NEW YORK, Dec. 30.—Every bank  
and banking house in the financial  
district is working overtime to close  
the business of the year. In several  
instances the duties of the clerks in  
private banking firms have been in-  
creased because such firms have acted  
as agents for various funds collect-  
ed for sufferers of the European war.  
It is predicted that the disbursement  
of dividends at the first of the year  
will create a new record in financial  
history.

## Romance

Tell me a tale of the picaroons,  
Or else of a sailor bold,  
Sing me a song of Spanish doubloons,  
And whisper of hidden gold.

I'm sick to my soul of social vice,  
And of votes for women, too;  
The cost of buying a pound of rice  
And what will our congress do.

Away with all that's timely and new,  
Forget the turkey trot dance,  
Eugenist, scientist, banish the crew!  
And quaff me the cup, romance!

So let's go sailing over the sea  
In search of adventures far,  
Sail on till we come to Arcadie,  
Where our childhood's heroes are.

Let's run in Sherwood with Robin's band  
And prout with Harun the Wise,  
Find Friday's footsteps upon the sand  
And joust for our ladies' eyes.

Tell me a tale of knights of the road,  
Or else of a Chinese junk,  
Sing me a song of jewels that glowed,  
Whisper of galleons sunk.

We'll go in quest of the fleece of gold,  
Or fight for the fame of Rome,  
And not till we've drained those days of old  
Will we turn reluctant home.  
—Grace M. Peters in Collier's Weekly.

## LETTER FROM THE GRAVE OF YOUNG FRENCH OFFICER

Message of Comfort to His Widowed  
Mother Delivered After His Death.

The following letter, written by her son, a young Alsatian officer in the French army, with the direction that it should be delivered only in the event of his death, has been received by Mme. Wurts, who occupied a humble post in the service of the state railways. It was published in the Temps of Paris:

My Dear Little Mother—I hope that you will never receive this letter, for if it comes to you it will mean that I have gone to join grandfather and my dear little brother.

This idea of death does not frighten me in the least. If I fall it will be for France and in the performance of my duty. Like so many others this moment. It is only about you that I am troubled, and I say to myself: "What will poor mother do?"

If I die this is what you must do. In the first place, you must be calm and remain so. You must keep all your self-control, and must not run out in the street crying out your sorrow. Your grief must be calm and dignified. Then you must go to father's grave at Luche-Thouarsais and tell him that his two sons have died doing their duty and that his son-in-law has done as much.

Father will be happy to know that his big Rodolphe and his little Emile have fallen on the field of honor. You will tell him, too, that Rodolphe has won his epaulet and that he felt at the head of his men, with his face to the foe. He will be pleased, poor father, and you, dear mother, will have the satisfaction of having given birth to honest men, whatever some people have said. You will return to your work at the Chef-Boutonne sta-

tion, and you will stay there until the day when you make up your mind that you have worked long enough and are tired enough to take your rest. You will go back to your own country, to Alsace, once more French, and you will say to yourself that if you are in Thann or Strassburg, it is because your sons have done their part to restore our dear provinces to France. How sweet that thought will be to your heart! It will be a consolation in your old age. I want you always to be hopeful and full of courage. Sacrifice cheerfully accepted, joy in resignation—these make us strong.

You must put far from you all resentment against any one. You must not be envious of the mothers who have kept their children, if sometimes you are moved to complain. When you see the comrades of my brother and myself reflect that your sons suffer no more and that their glorious death is far better than the miserable existence of those who remain. You promise, don't you?

If I do not return you will tell yourself that the last thoughts of your big boy were of you and my sister Blanche, and that from the paradise of the brave I will watch over both of you. Kisses to you, then, and a strong heart and good courage in life as in death!

Your big boy who loves you dearly,  
RODOLPHE WURTS.

## WAR'S COST \$38,800,000,000.

British Take \$120,000,000 of Latest French Loan.

Jules Roche said recently in the French chamber of deputies that the war has cost Europe 194,000,000,000 francs (\$38,800,000,000), that France's share of this has been 26,000,000,000 francs (\$5,200,000,000) and that her enemies have spent 47,000,000,000 francs, or \$9,400,000,000.

These figures were mentioned in the course of the debate on the granting of a three months' credit on the budget account for the first six months of 1916. The chamber voted the credits asked for. There was only one dissenting voice.

M. Ribot, the minister of finance, said that the expenditures for France at the beginning of the war had been \$300,000,000 a month, but that they had increased to \$420,000,000 a month. He mentioned the recent French national loan and said that subscriptions to this loan from London alone amounted to \$120,000,000. He could give no total figures of the results of the loan yet, he said, but the country had responded to the call and never had there been so large a number of subscribers.

## GRAFT HICKORY AND PECAN.

Scheme Greatly Improves Quality and Quantity of Finer Nut.

Nuts gathered from this year's crop at the Shreveport (La.) Golf and Country club demonstrate the practicability of grafting hickory trees with pecans.

S. H. Bolinger, former president of the club, who was responsible for the grafting operations, points to the quality of the nuts as evidence of the success of the scheme.

Bolinger also has about a thousand trees grafted at his Lee plantation, some of which are producing as high as a hundred pounds to the tree.

**Wood Violets**

Through meadows bare lay broken stems  
Where snow-daisies once had bloomed  
O'er meadows sweet, but now all near  
With autumn's brown dead leaves entombed.

They rustled 'neath my cautious tread  
When something stirred from slumber—  
Hid in sequestered nook I found  
Wood violets, as though 'twere spring—

Wood violets in leafy bed,  
Their pure eyes upturned to my face.  
"How can you, violets," I said,  
"Bloom in so sad and lone a place?"

"A secret 'tis," they answered me  
And whispered what they had to say:  
"God in this meadow planted us  
To bloom when daisies passed away."

"Bloom bright," he said, "in wintry skies  
When earth is dark and days are dull!  
Peep from your bed with snowing eyes  
And make bare meadows beautiful."  
—Augusta Wall in Atlanta Constitution

**GERMANY CUTS DEATH RATE OF HER WOUNDED SOLDIERS**

Less Than 2 Per Cent of Teutons Die From Their Wounds.

Less than 2 per cent of the German soldiers die of their wounds, according to figures made public in Berlin. Last June and July the number of deaths among 1,000 wounded dropped to 12. During the whole of the first year of the war the deaths in each 1,000 wounded were 17, while the number of men made unserviceable through being crippled was 88. Out of each 1,000 of the wounded 886 returned to duty.

The first month of the war, August, 1914, showed that 30 died in each 1,000, that 122 were crippled and not fit for service and that 844 returned to duty. In September of the same year the number who returned to the front was 888, and the deaths fell to 27. In October the serviceable reached 889 and the deaths 24. From November, 1914, to March of the next year figures of those who returned to the front ranged between 873 and 889, largely because of the rigors of the winter at the front, but those who died from their wounds fell from 21 in November to 17 in December, 14 in January and 13 in February, while the number was reduced from 14 in March, April and May to 12 in June and July.

In April the number returned to the front reached 912, in June 917 and in May and July 918. At that time 70 out of each 1,000 wounded were invalided home. No other army in the world has been able to show such figures.

**SEES CONTROL OF GROWTH.**

Science May Dictate Size and Weight of the Race.

That science is on the threshold of discoveries which will make it possible to retard or hasten the growth of human beings was the statement made by Dr. M. W. Jacobs of Philadelphia. He asserted that experiments with rats have proved that animals fed on certain proteins for extended periods maintain a constant weight, but as soon as other necessary constituents are added growth is resumed.

He cited one instance in which a rat was kept stunted for 532 days, an age corresponding to about forty-five years in human life. By changing the diet growth was permitted to develop that would normally have taken place in youth.

"We have it in our power," said Dr. Jacobs, "to say whether an animal shall do its growing in youth or old age or whether it shall have several periods of growth. This being true, it is not too much to expect that the ultimate outcome of such work will be the scientific control of the forces of organic growth even in human beings."

**DID YOU GET ANY OF 'EM?**

United States Printed 108,254,718 Sheets of Notes and Bonds in 1915.

The tremendous volume of currency produced in 1915 is disclosed in the annual report of Director Ralph of the bureau of engraving and printing.

The report shows that the bureau during the year completed 71,112,000 sheets of United States notes and certificates for the treasurer of the United States, 18,300 of its bonds for the division of loans and currency of the treasury department, 19,134,418 sheets of national bank notes and 16,890,000 of federal reserve notes for the controller of the currency.

Mr. Ralph states that, compared with the deliveries of the fiscal year 1914, there was an increase of 187 per cent in national banks and federal reserve notes and a decrease of 3.36 per cent in United States notes, certificates and bonds.

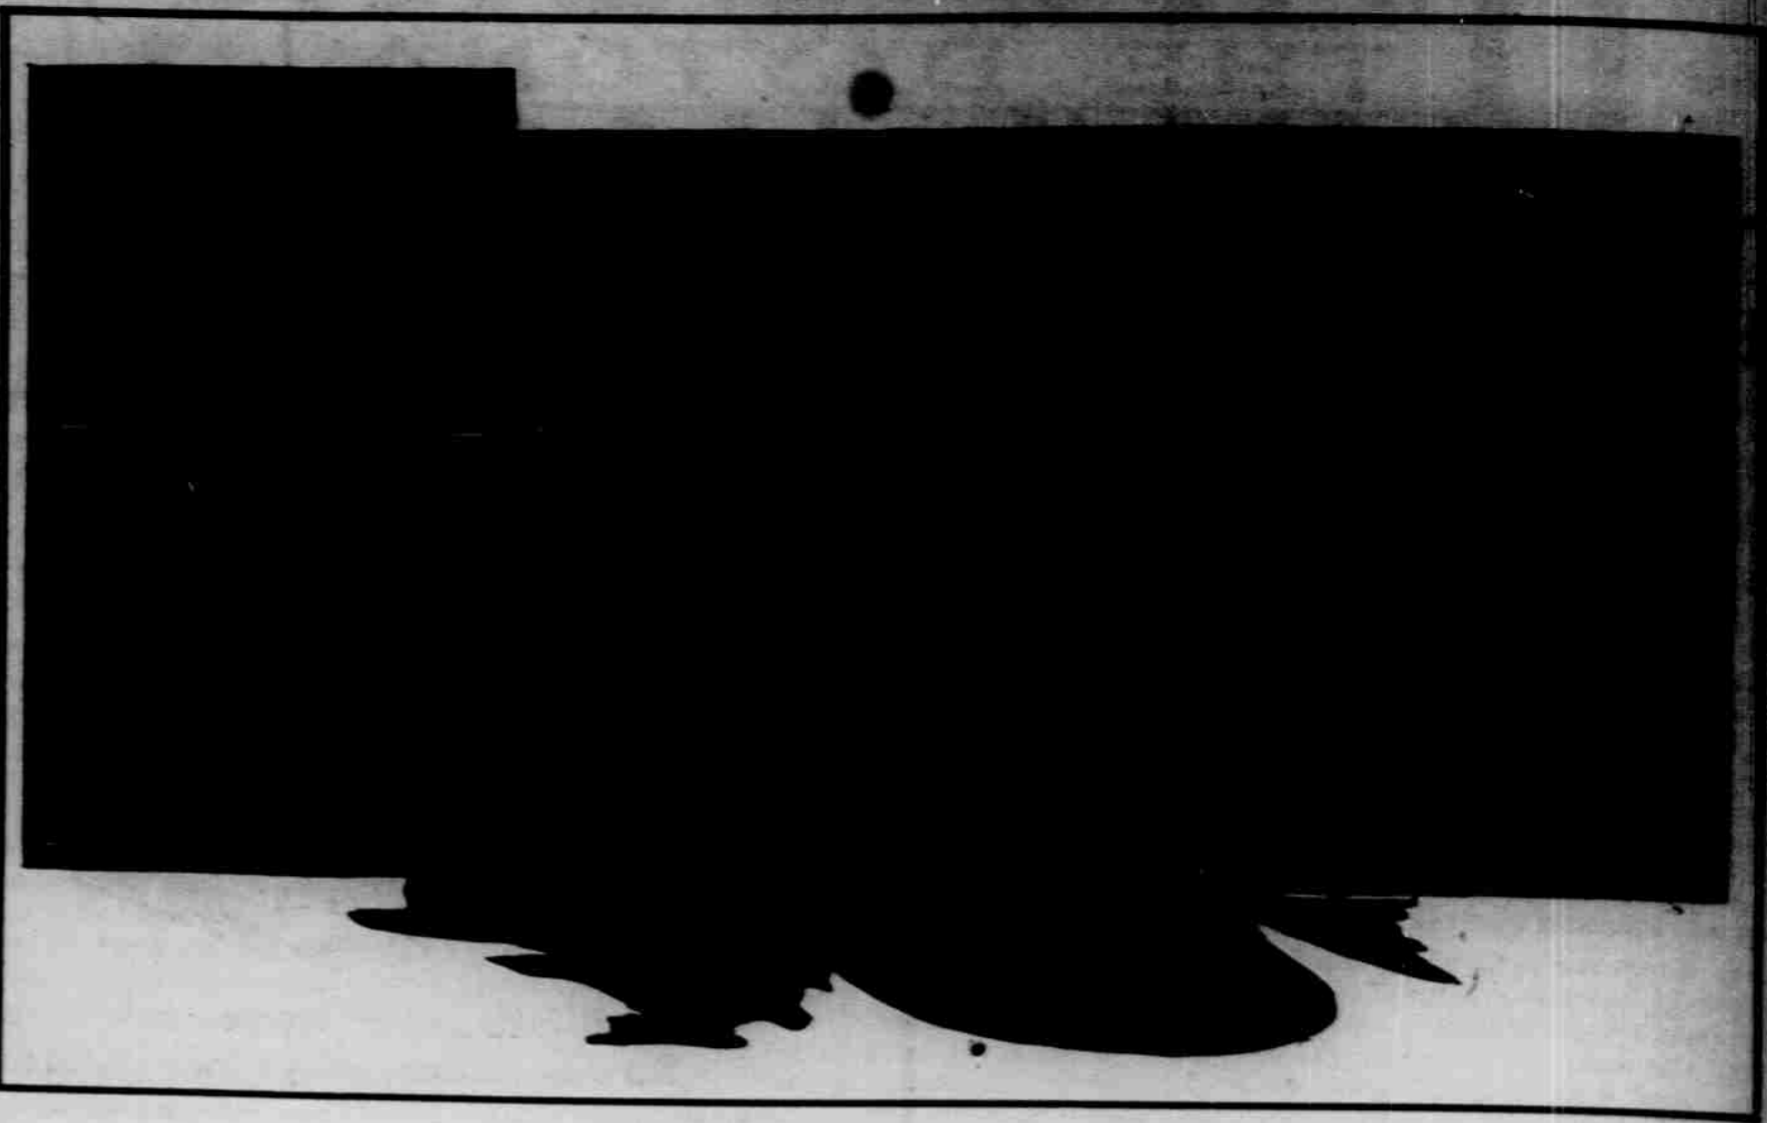

The director discloses that the bureau already has felt the effect of the dyestuff famine resulting from the European war and has been forced to utilize some substitute dyes in printing greenbacks and yellow backs.

**GIVE HIM WORKING PARTY.**

Twenty-four Neighbors Donate Day's Labor Each to Injured Farmer.

Verne Connor, a farmer of Clarksville, Ia., recently suffered a broken leg in a fall and has been unable to do work since. The other day twenty-four able-bodied men of the neighborhood joined in giving Connor a free day's work. They husked and shocked his corn and repaired his fences.

The women of the neighborhood also lent a helping hand to Mrs. Connor, whose housework had suffered somewhat because of the attention demanded by her husband.

**ALLANDALE.**

ALLANDALE, Dec. 28.—The Allandale Improvement association held its second meeting on Tuesday evening of last week and perfected the organization. It will meet hereafter on the first and third Monday evenings of each month. All property owners living here have become members and all show much interest in the movement, and it is to be hoped that the non-resident owners will take the same interest and lend their aid.

Walter B. McCorkle and wife, of Ocean City, N. J., are stopping with Mrs. Howes. Mr. McCorkle will be here most of the winter doing an amount of cement work around the inn grounds.

The Bakers have arrived and are located in their bungalow on the river side.

The 500 club met last Wednesday and after a pleasant evening cards broke up with an informal dance, dancing the old-fashioned dances. They will meet again this week on Wednesday.

F. O. Sparkman with his gang, has made a vast improvement in the looks of the streets after cleaning out the parkways.

"Mary," the kittenish Buick so long identified with Allandale, has received a coat of green paint and can be seen often on the road keeping the grass from growing or the road from freezing. Guy Lamphere and Ray Fisher have put the engine in fine shape and can cut 35 miles per hour out of the "old girl." The members of the Allandale Auto club and their friends get all the pleasure out of the car even if it is not all in style.

Mr. Christiancy came home rather unexpectedly for Christmas and expects to be home till New Year's day, when he will leave again for the south.

Christmas day was rather quiet here; family dinners seem to have been the rule.

Miss M. E. Brock went to her home in Jacksonville for the week-end and returned on Tuesday.

**Peculiarities of Dye.**

Closely related to yeast, fungi discovered in breweries by a Japanese scientist have been found to dye silk a beautiful rose color, but to be harmless when used in the manufacture of beer.

**HOLLY HILL.**

HOLLY HILL, Dec. 28.—John Labard arrived here last week from Georgetown, Mass., and is occupying his cottage on Walker avenue.

H. O. Watson was here one day this week on a visit to look after his property. Mr. and Mrs. Watson, formerly of this place, are now proprietors of the Greystone hotel at Perry, Florida.

The Christmas exercises at the church Thursday evening were very successful. The program consisted of songs, dialogues and recitations, after which Santa Claus appeared with a sleigh, drawn by six little Brownies.

M. K. Wentworth, of Plaiston, N. H., visited Mr. and Mrs. C. A. Corning last week. Mr. Wentworth is the head of the Granite State Spring Water and Tonic company, and stopped over en route to his Northern home.

Chas. A. Parker and family drove to St. Augustine in their car to spend Christmas with relatives in that place. They returned Sunday evening.

Mrs. Gilbert and daughter, Dorothy, went to DeLand the latter part of

last week to spend the holidays with Mr. Gilbert, who was expected home from his Western trip last week.

Mrs. A. S. Putten had a Christmas tree for her niece, little Dorothy and Gladys Atkinson and Margaret and Emma Somers. A few of their friends were invited to participate with them in its enjoyment.

Edwin Peterson and family spent Christmas in Pierson with Mr. Peterson's parents.

Mr. and Mrs. W. E. Longee and family, of Daytona Beach, spent Christmas with Mrs. Longee's parents, Mr. and Mrs. E. A. Richards, of this place.

Mr. and Mrs. J. M. Dillon, of London, Canada, are visiting Mrs. Dillon's brother, W. H. Heath, and family, having arrived Tuesday.

The Misses Alice and Ethel Kelt, of Jacksonville, granddaughters of Henry Johnson, made Mr. and Mrs. Johnson a few days' holiday visit, returning to Jacksonville Tuesday.

**Up-to-Date Gypsies.**

An up-to-date gypsy band which stopped in Pierre, S. D., traveled by auto and not by a dingy wagon train. There was no horse trading, but the women still followed their traditional business of fortune telling.

### TREADWELL ILL AT M. E. PARSONAGE

Mr. J. J. Treadwell is quite ill at the Methodist Episcopal parsonage on Grandview avenue. Mr. Treadwell became ill last Saturday but recovered sufficiently to conduct the evening service Sunday night. After this, however, he suffered a relapse and is probably confined for the remainder of the week. Mr. Treadwell's friends are earnestly hoping for his recovery.

### ENTERTAIN FRIENDS AT AN AFTERNOON PARTY

Miss Dorothy Manchester will entertain a number of her young lady friends at her residence on Palmetto street Thursday afternoon in honor of her cousin, Miss Ruth Sissons. Miss Sissons and Manchester are leaving their two-weeks' vacation at attending school at the State College for Women at Tallahassee and spending the time with Miss Manchester's parents, Mr. and Mrs. W. N. Manchester.

### LIVES FOR TWELFTH SEASON IN SEABREEZE

Mr. Sherman, of New York City, arrived yesterday to open his pressing business on Ocean boulevard for the season. Mr. Sherman started in business here nearly 13 years ago and occupied the same little shop since that year here.

### ANNUAL MEETING OF SEABREEZE ASSOCIATION

The Seabreeze Public Library association held its annual business meeting Wednesday afternoon at the Sonoma investment company building on Ocean boulevard in order to elect officers and trustees for the new year. The association decided to have the new year used by the library thoroughly cleaned and the books dusted. R. T. Butler volunteered to undertake this part of the work.

W. Lott, Mrs. W. S. Ranslow and E. W. Powers were elected trustees and the following officers made for the new year: W. J. Gamble, president; R. T. Butler, vice president; May Haigh, secretary and treasurer.

### DAYTONA BEACH LOCALS

Miss Margaret Reed will entertain the members of her 500 club at her home on Grandview avenue this afternoon.

Mrs. C. H. Slotum, who recently arrived from Ithaca, N. Y., has taken rooms in Mrs. C. L. Horn's apartment house for the remainder of the winter.

An enjoyable time was experienced by a number of people who made a trip to the inlet as guests of Mr. and Mrs. J. S. Barbe Wednesday afternoon.

Judge N. C. Sears left Wednesday for Chicago, after spending the last week and a half visiting his family at the attractive Sears residence on Peninsula drive and the river front.

T. H. Keating, who has been ill at his home on Seabreeze avenue for several months, is slowly improving in condition and is able to enjoy the open air from the veranda of his home.

J. E. Smith, one of the regular winter tourists to this place, arrived yesterday from Des Moines, Ia., to spend a few weeks here. Mr. Smith will continue south to Miami about the 15th of January.

Mr. and Mrs. J. Himmelberger arrived a few days ago from their home in Holland, Mich., and will spend the winter here. They are pleasantly located in the Horn apartment house on Peninsula drive.

Mrs. W. A. Stewart returned yesterday from a summer spent in Chattanooga, Tenn., and will visit her daughter, Mrs. E. E. Johnson, and family, at the Johnson home on Grandview avenue. Mrs. Stewart has enjoyed parts of several seasons at the beach.

R. H. Hilton came in Tuesday from his summer home in Garrison, N. Y., accompanied by his wife and two daughters, Freda and Doris, and have opened their home on the ocean bluff for the winter. Their residence is the former Blodgett house and has been renamed, "The Barrison."

The Florida Times-Union, which has been running a Sunday automobile service to Daytona, Daytona Beach, Seabreeze and New Smyrna, has discontinued this service for the present. The papers will arrive on the early afternoon train as formerly, and will be distributed at the same time as on the week days, by the local carrier.

### New England Caution.

The caution of the New Englander is giving a direct answer to a direct question is proverbial. Two natives of a New Hampshire town met after the funeral, and the first asked: "Was not your father's death very sudden?" Slowly drawing one hand from his pocket, and pulling down his beard, the other replied, thoughtfully: "Well, rather sudden for him."

### His Investment.

The man with the hoe had just finished planting his sweet peas. "There," said he, straightening up. "I've spoiled a \$5 pair of shoes and ruined a \$6 pair of trousers, but if we have good luck we'll get a bouquet for which the florist would have charged about 50 cents."—Stray Stories.

### Something Different.

With a view to letting nothing escape her vigilance, Mrs. Muggins cross-examined the prospective housemaid. "You are quite certain you know your duties thoroughly?" she said, after deciding to engage her. "You will answer the door to visitors, and wait at table, and—" "Oh, yes, mum," said Mary Jane. "I am quite sure I will know how to go about them." Mrs. Muggins was on the point of turning away, when a thought struck her, and she suddenly swung round to the girl. "Oh, by the way, do you know your way to announce?" "Well, mum," replied Mary Jane, innocently, "I'm not sure about that; but I think I know my weight to a pound or so!"

### SEABREEZE PERSONALS

Miss Helen Ake, of Mims, who is attending Stetson university, came over from DeLand Wednesday to visit her friend, Miss Ethel Sholtz.

H. A. Keffer returned Wednesday afternoon from DeLand, where he has been staying since Christmas with his daughter, Mrs. L. E. Treadaway.

Miss Viola Radford arrived yesterday from Stetson university and will visit her friend, Miss Ethel Sholtz, at the Sholtz home on the ocean front in Seabreeze for several days.

Mr. and Mrs. G. A. Upton arrived Wednesday afternoon from Boston, where they have been spending the summer, and are registered for an indefinite stay at the Princess Iskena.

Miss Ruth Houston came over from Stetson Tuesday and is visiting her friend, Miss Margaret Gamble, for a few days at the Gamble residence on North Halifax avenue and the river front.

Miss Mary Evernden will leave Saturday of this week for Fremont, N. C., where she will take up work in the Fremont academy as a teacher of music. Miss Evernden was formerly employed in this position.

Miss Ethel Sholtz will entertain a number of her friends at the Nautilus casino Friday evening. The time will be spent in dancing and merry-making until the old year is gone, when the entertainment will break up and the guests return to their homes.

E. B. Case came in Wednesday from a summer spent at Saratoga Springs, N. Y., and is pleasantly located at the Seminole Lodge on Ocean boulevard. Mr. Case has enjoyed many winters here and has been a guest at the attractive Seminole Lodge for several seasons.

Mr. and Mrs. Fred Schaff came in Tuesday from their home in Kingston, Ohio, and will occupy one of the apartments in their residence on Duke street, the Buckeye. Mr. and Mrs. Schaff have spent the last four seasons here, and have many friends in Seabreeze and Daytona Beach.

### Somewhat Personal.

A skeptic who was badgering a simple-minded old man about a miracle and Balaam's ass, finally said: "How is it possible for an ass to talk like a man?" "Well," replied the honest old believer, with meaning emphasis, "I don't see why it ain't as easy for an ass to talk like a man as it is for a man to talk like an ass."

### Large Drill in Small Press.

Drilling a hole larger than the maximum capacity of a small drill press can be done by turning down the shank of the drill to a size that will fit the chuck. The hole should first be drilled a size smaller than is desired; then the large drill used. This step is necessary because the speed of the average small press is too fast for a large drill.—World's Advance.

### Indigestion.

Indigestion follows rye bread only because of the yeast in it. The temperature of the intestines is the most favorable possible for producing a renewed "rising" of the yeast, and through this chemical process the intestines are poisoned, and other foods, notably the acids from fruits and some vegetable, add to the trouble.

### Rather Fishy.

"What made you distrust that Italian refugee? I thought he told a straight story." "It sounded so, but when I questioned him as to his home and occupation he said he was a street cleaner in Venice."—Baltimore American.

### "Drop" Defined.

In the British pharmacopeia a "drop" is defined as coming from a tube of which the external diameter is exactly three millimeters, 20 such drops of water at 15 degrees Centigrade being equivalent to one milliliter or cubic centimeter.

### FOUR NEWS STANDS HANDLE DAILY NEWS

The Daily News can be found on sale every afternoon shortly after publication at three different news stands on the peninsula; at the Gulf News company and the J. E. D. Graves office on Seabreeze avenue in Daytona Beach, and at S. E. Morris' barber shop and news stand in Seabreeze on Ocean boulevard.

The news stand at the Clarendon hotel will also sell the Daily News as soon as the Clarendon season starts.

Many people wish to leave orders for the paper but do not know where papers may be obtained on the peninsula side. An agency has been opened for several weeks at the J. E. D. Graves office on Seabreeze avenue and new subscriptions or items for publication can be left there.

### Dead Giveaway.

"I don't think my ex-stenographer will get a job through the recommendation I gave him." "Didn't you give him a good one?" "Yes, but he took it down and typed it himself. And it was full of errors."

### Natural Conclusion.

City Editor—"You interviewed Mrs. Gabbs on the subject, of course?" Reporter—"Well, not exactly. I saw the lady, but she hadn't a word to say." City Editor—"Haden't a word to say! Why, when did she die?"

### The End of All Things.

Man with Paper—"Here's a preacher in Syracuse, N. Y., who declares that the time will come when there will be no liars in the world." Pessimist—"Well, the world is due to end some time."—Canadian Courier.

### Responsibility Surrendered.

"Your wife is an enthusiastic advocate of woman suffrage." "Yes," replied Mr. Meekton. "And I'm glad of it. She's going to take her turn at letting me ask irrelevant questions, while she tries to explain what's being done in politics."

### Named for American.

One of the most important streets in London, Downing street, was named for a native American.

### Unconvinced.

"Now, to illustrate the roundness of the earth," said Columbus, "I will show you an egg." "That doesn't convince me," replied the court astronomer. "If you had waited till the egg became an omelet it would prove that the earth is flat."

### Goose Chase.

A lady had been looking for a friend for a long time without success. Finally she came upon her in an unexpected way. "Well," she exclaimed, "I've been on a perfect wild goose chase all day long but, thank goodness, I've found you at last."

### Clings to Dreams.

I could give up tobacco and alcohol and clean collars and servants and everything you could think of—but not dreams. Without them the earth is just a sort of backyard of a place; and with them, an infinite garden.—W. J. Locke, in Septimus.

### LOW TIDES ON THE BEACH

## The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

**Silence of Operation**—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

**Decimal Tabulator**—A help in billing and tabulating. There is no extra charge for this convenience.

**Variable Line Spacer**—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

**Faster Ribbon Feed**—Insures new place of impact for each typeface.

**Choice of Carriage Return**—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

## THE WEATHER

While the Northern states lie buried under a blanket of snow and ice Daytona basks beneath a particularly bright southern sun set in a clear sky.

Vicious storms are busy tearing down wires, delaying trains, freezing the poor and creating a lot of unnecessary disturbance, but Florida just smiles up at the sun and the sun smiles back.

Fair weather in Daytona and vicinity is predicted for tonight and Friday with the exception of the northwestern portion of the state. The tail-end of one of the most ambitious of the northern storms promises to cast a gloom of rain in the neighborhood for a short period. Light to moderate variable winds are also expected in the vicinity.

## D. H. S. DEFEATS THE ALUMNI TEAM

SECOND GAME AT THE ARCADE  
WEDNESDAY NIGHT LOST TO THE DAYTONA ALL-STARS AFTER CLOSE CONTEST.

Two close and well-played basketball games were held at the Arcade Wednesday night, the first of which was won and the second lost, by the Daytona high school team. The first contest was between the regular team and a quintet composed of the former members of the school team who are here enjoying their Christmas vacations. As usual, Branch and Green played the greater part of the game for the Daytona team and were well supported by the other members. Doty especially doing good guard work. Toward the end of the game R. Green, Daytona right forward, injured his leg as did Drake, of the Alumni team, which caused a slowing up in the play. The following is the line-up and summary of the first game:

| D. H. S.    | Position      | Alumni    |
|-------------|---------------|-----------|
| Branch      | center        | Esch      |
| R. Green    | right forward | Gardiner  |
| W. Sullivan | left forward  | Ballough  |
| Doty        | right guard   | Drake     |
| O. Sullivan | left guard    | Wetherell |

Score: D. H. S., 35; Alumni, 17.  
Field goals: Green 7, Branch 6, W. Sullivan 3, O. Sullivan 1, Gardiner 2, Esch 1, Drake 1, Wetherell 1. Foul goals: Green 1, Gardiner 7.

The second contest was between the regular high school team and a combination called the Daytona All-Stars, most of whom entered the game in a fresh condition, thus enabling them to defeat the high school five.

The line-up and summary was as follows:

| D. H. S.    | Position      | All-Stars |
|-------------|---------------|-----------|
| Branch      | center        | Esch      |
| R. Green    | right forward | Gardiner  |
| W. Sullivan | left forward  | Saunders  |
| Doty        | right guard   | Woodbury  |
| O. Sullivan | left guard    | E. Green  |

Score: D. H. S., 12; All-Stars, 22.  
Field goals: Branch 3, W. Sullivan 2, Saunders 1, Gardiner 5, Esch 1, Woodbury 6, E. Green 2. Foul goals: Branch 2, Gardiner 2.

## FLAGLER STATUE TO BE UNVEILED ON NEXT SUNDAY

AN APPROPRIATE PROGRAM HAS BEEN ARRANGED FOR EVENT IN HONOR OF H. M. FLAGLER IN ST. AUGUSTINE.

ST. AUGUSTINE, Dec. 30.—An event of much moment will be the unveiling of the statue of Henry M. Flagler next Sunday afternoon at 3 o'clock in the park of the Florida East Coast railway station here.

An appropriate program has been prepared for the occasion in which tributes will be paid to the memory of Florida's great developer. Vice President J. E. Ingraham is in charge of the arrangements. Mr. Ingraham will act in a dual capacity—that of a high official of the Florida East Coast railroad, a close personal friend of Mr. Flagler and mayor of the city.

Little Kathleen Gibbs, granddaughter of Mr. Ingraham, will unveil the statue, which is life-size, the material being bronze. Among the speakers for the occasion will be Adjutant General J. C. R. Foster, Vice President J. E. Ingraham and J. T. Dismukes, president of the First National Bank. The municipal band will participate in the program and several choral numbers will have a place on the program. The children of the public school will lay flowers on the base of the pedestal. President W. H. Beardsley, of the F. E. C. railway, and other officials will come for the unveiling.

### Making Starch.

It is a good plan, when making starch, to shave off some fine pieces of soap and add them to the starch. This gives a beautiful glossy finish to collars and cuffs, and will prevent the irons sticking.

### Danger in Too Much Softness.

"A soft answer will turn away wrath, jes' as de Good Book says," observed Uncle Eben. "But too much softness is gwinter tempt somebody to hand you a slap, jes' foh de fun of it."

### Unquestioned Antiquity.

We never did like the mother-in-law joke, but have learned to respect it because of its great age. The joke was a distinguished contemporary of Methuselah, and as we all know, has survived that ancient citizen by something more than two thousand years.—New Orleans States.

### Not the Only Ones.

New Jersey robins used a two-dollar bill as material for a nest. They are not the only builders who have put all the money they could get together into a home.

### The Logic of It.

The Yale freshman year was proving very expensive to father, so father decided to have a "heart-to-heart" talk with Johnny, home for the week end. "Now, son," said he gravely, but affectionately, "your mother and I are spending just as little as we possibly can. I get up in the morning at half-past six and I work until after five. But, son, the money just won't go round at the rate that your expenses are running. Now, I ask you, as one man to another, what do you think we had better do?" For a moment Johnny's head was buried in thought—and then he replied: "Well, father, I don't see any way out but for you to work nights."

### COST \$190 TO MOVE PICTURE EQUIPMENT

Speaking of a Daytona lawsuit, the DeLand News says:

"An interesting case is now being thrashed out in the local courts of Volusia county. Catherine Smith, of Daytona, owns the building in which the Colonial theater has run for some time; the building was leased to C. E. Johnston, who built an inclined floor, wired the building, put in seats, screens, fixtures, etc. Owing to some difference in the matter of paying rent, Mrs. Smith brought suit against Johnston, who in the meantime continued to occupy the building. The last move has just been made, where-in Sheriff Smith and his deputies have removed Johnston's property from Mrs. Smith's building, including the inclined floor, and 117 other items, which took 13 two-horse wagon loads to haul away. It cost \$190.00 to remove the Johnston property from the Smith building."

To live in Daytona is to enjoy life.

### NEW FIRE SIGNALS IN EFFECT JAN. 1

Fire Chief W. E. French makes the announcement that the new fire signals will go into effect January 1.

The city has been divided into seven fire wards, four of which are east of the railroad.

The first ward comprises that section of the city from Orange avenue northward to the north canal; ward two, from Orange avenue south to Cedar street; ward three, from north canal to north city line; ward four, from Cedar street to south city line. The district west of the railroad will remain as heretofore, except the north portion of ward six, which will be designated as 62, or Palmetto Park and Baker street section. This lies directly west of ward one.

The alarms given by the whistle or strokes of the bell will be as follows: East of the railroad, first will be blown or struck the ward number, followed by the street from the river westward. For example: Ridgewood avenue, near South street, the signal

will be four, denoting the ward, and three, designating the street back from the river.

Charts can be obtained at the fire station.

### Applause at a Concert.

"You seem to enjoy the heavy Wagnerian numbers on the program?" "I don't." "Then why do you applaud so strongly?" "I want to hear the pretty little pieces they always play for encores."

### Marriage Rings.

There is no law saying that a wedding ring must necessarily be of gold. Marriages have been celebrated when, in the absence of a proper ring, the ring on a church door key has been used.

### Skim Milk.

In distributing the milk of human kindness the givers too often keep the cream

### Eclipses of the Sun.

Two eclipses is the least number that can occur in any one year, and these must be of the sun. No more than seven can take place in any one year, and five of these must be of the sun.

### FINE SCHEME.

While E. L. Potter is here this winter, Daytona Beach business men should make arrangements to have the Clarendon remain open all summer. Daytona has the finest beach in the world, as well as one of the finest beach hotels. Parties could be drawn from all over Florida, and the fact that the Clarendon was open would bring thousands to the beach where now only hundreds go. It would help the other hotels as well as the town and cottage business. Daytona Beach ought to be, and some day will be, the summer resort for all Florida and Georgia, and the Carolinas.—DeLand News.

Mrs. W. J. Shaw, in company with Mrs. Emma Shaw and their brother, Oliver Tisdall, arrived in Daytona Wednesday night, from Newport, R. I., and will spend the season at Mrs. W. J. Shaw's winter home at 736 South Ridgewood avenue.

## NOTICE FOR COMMIS'ERS PUBLISHED FRIDAY

OFFICIAL PUBLICATION OF  
ELECTION NOTICE TO APPEAR  
IN THE GAZETTE-NEWS—ELECTION  
TO BE HELD FEB. 9.

According to the resolution adopted by the city council in regular session December 13, City Clerk A. McF. has issued the call for the election to be held on February 9 for the purpose of electing five charter commissioners, whose duty it will be to prepare a charter for the city of Daytona.

The election notice which will be its first official publication in the Gazette-News tomorrow, reads as follows:

Notice is hereby given of a special municipal election of the city of Daytona, Florida, to be held under and by authority of a resolution of the city council of the city of Daytona, Florida, adopted in regular session December 13, A. D. 1915.

It is resolved by the city council of the city of Daytona, Florida, in regular session assembled, that under and by authority of Chapter No. 6940 of the Laws of the State of Florida, entitled "An Act to amend the charter of the city of Daytona, Florida, and to adopt charters for the government," we do hereby call an election to be held at the time of the first city election, to-wit: on Wednesday, February 9, 1916, at which election shall be chosen by the qualified electors of the city of Daytona, a charter of five members, whose duties shall be those provided for in the above named Act, a notice of which election shall be given by the city clerk of the city of Daytona, and published in a newspaper published in said city of Daytona each week for four consecutive weeks, the first publication thereof to be not less than twenty-five days prior to the election.

Accepted by the city council of the city of Daytona, Florida, this 13th day of December, A. D. 1915.  
Attest under my hand and the seal of the city of Daytona, Volusia county, Florida, by order of the city council of the city of Daytona, this 29th day of December, A. D. 1915.  
A. McF. PORTER,  
Clerk of the City of Daytona, Fla.

## ALLEGED NEGRO FORGER IN JAIL

A remarkable forgery case was brought to light this morning when Chief of Police T. O. Milton arrested a negro in Kingston who said he was Charlie Williams.

Since December 1 checks for various sums, mostly nine and ten-dollar amounts, have been coming in to the two Daytona banks. There are now seven checks in all, six drawn on the First National bank and one on the Merchants bank. The sum totals \$64. Williams was too clever to present the checks direct to the banks. He would go to some grocery or meat market, make a purchase and hand over a check as payment.

Chief Milton has had his suspicions for some time concerning the forger, as Williams spent six months in jail last spring for stealing. He was then employed by Joseph Scher of this city as a porter. Scher discovered articles disappearing and charged Williams.

However, it took some little time to trace down the forgeries. In each case a different name was signed to the check and the signature was occasionally drawn in pencil.

This morning Chief Milton decided to get his man. He had more or less of a hunt for him, but finally located him in Kingston, where he was delivering clothes. After the arrest Chief Milton took him to several of the victims who had accepted checks. They easily identified him. Then he was locked up in the jail to await trial.

He is to receive a preliminary hearing before Justice Rowe today at 3:00 o'clock. It is probable that a heavy sentence will be imposed as it is alleged to be a second offense.

Where Williams came from originally seems a mystery. He first appeared in the limelight when it was discovered last winter that he was stealing from his employer, Joseph Scher. After serving six months, he returned to Daytona.

## ADMIRAL INGERSOLL AGAIN VISITS CITY

Admiral and Mrs. R. R. Ingersoll arrived today from Laporte, Ind., and are guests at the Ivy Lane Inn for the third season. Admiral and Mrs. Ingersoll have many friends here who will be pleased to learn of their return for the winter, particularly as it was understood at one time that they would not come South this season.

## ENGLISH MUNITION MAKERS EMPLOYED BY THE GERMANS

DISMISSED BRITISH WORKMEN  
EMPLOYED AT ESSEN FACTORY.  
MANY HAD KNOWLEDGE OF SE-  
CRET PROCESSES.

LONDON, Dec. 30.—The remarkable announcement in the house of commons that Woolwich arsenal workmen went to Krupp's when dismissed by Lord Haldane, then secretary of war, recalls that hundreds of them were driven to Germany in 1907 by war office policy.

The dismissed workmen were advised, it is said, to emigrate either to the colonies or to foreign countries. German agents made their appearance in the locality, and shortly afterward party after party of Woolwich workmen—all skilled English mechanics—departed from Dover to take employment at Essen.

It was stated without contradiction that many of these men had secret knowledge of munition methods. Tor-

pedo workmen from Woolwich were offered as much as \$50 a week by the Germans. It was estimated at the time that at least 2,000 Woolwich arsenal workmen migrated to Germany within a couple of months.

Public attention was directed to the scandal in 1909, when it was declared that Woolwich arsenal had been depleted to such an extent that 60 per cent of its machinery was lying idle.

## PENNSYLVANIA TO ENTER INTO LIABILITY INSURANCE

HARRISBURG, Dec. 30.—The State of Pennsylvania has completed all arrangements to enter into the liability insurance business on January 1. The step to be made by the state is in line with the strides it has taken in the realm of human legislation affecting workers, and one which has added many new problems to the commonwealth's administrative force. Briefly, the state determined to enter the insurance business in order to insure the enforcement of workmen's compensation.

## MEXICAN ROMANCE AT ARCADE TONIGHT

At the Arcade theater for Thursday will be shown "The Crest of Von Endheim," in two parts. The cast includes Harry Moody, Mr. Salisbury, Alberta Lee, Mary Glance, Adoni Fovieri, Mr. Lowery, Mr. Mack, Miss Arnold.

Count Von Endheim, a general under the defeated Mexican emperor, Maximilian, escapes from his hacienda, taking with him his only child, Carlos, a boy of five. He leaves Blowitz, an old servitor, in charge of the estate. Pursued by Captain Morales, Von Endheim contrives to reach an adobe hut, the home of an Indian woman, Concha Jaurez, to whom he entrusts little Carlos. He gives the woman money and takes from his breast a metal crest on a ribbon as a means of identification for his son, in case he does not return. Von Endheim is killed by Morales' men. The captain searches his body, discovers important documents, and takes possession of the dead man's estate. Blowitz escapes.

The imposter adopts the general's title and uniform. Carlos grows up

an ignorant peon. He becomes a sheep herder. The supposed son of the Indian woman has the effrontery to fall in love with Glorianna, daughter of the Gonzales, who romantically returns his affection. Meanwhile, the noble family of Glorianna, furiously opposed to the girl's attachment, has arranged a marriage between their daughter and the imposter, General Von Endheim. The general arrives. Glorianna finds him both ridiculous and loathsome. Carlos, the herder, runs away and joins the army. He returns in uniform, with many medals of honor. He and Glorianna, by a comparison of the imposter's family crest with the metal coat of arms which Carlos has always worn, discover an odd duplication. Next day, Carlos and his men capture Morales, and the son of Von Endheim puts on the uniform of his father. The identification of Carlos is finally established by Blowitz, the old servitor, who exposes the imposter and proves that the right man wears the right clothes. Glorianna's family is reconciled to her lover, and she and Carlos are married.

## NEWARK TO DAILY WITH CLAYTON

NEWARK, N. J., Dec. 30.—National banks in this city, all of which are to hold annual meetings in January, some of them beginning on Monday next, expect to ignore for the time being the provision of the so-called Clayton anti-trust law forbidding interlocking directors among large banking institutions. As the law does not go into operation so far as this provision is concerned, until next October, the intention appears to be general to re-elect their boards of directors and officials next month, when the Clayton bill becomes effective, they will continue in office or resign because of some other banking connection which may be prohibited as "interlocking."

## DEATHS OF TRIP IN AUSTRIAN SUB'NE

LIEUTENANT RELATES DESPAIR  
OF COMING TO SURFACE WHEN  
ACCIDENT TO MACHINERY OC-  
CURRED.

BERLIN, Dec. 30.—In the "Tage-  
blatt," Arnold Hollriegel tells of the  
trip he made in the Austrian subma-  
rine which torpedoed the Italian sub-  
marine Medusa, a feat unique in naval  
history.

"I was in the interior of this fa-  
mous U-boat," he writes. "The big  
Lieutenant showed me every  
part of the delicate machinery and ex-  
plained how the torpedo is loaded and  
fired. I was amazed at the amount  
of metal and glass and wire and pipe  
in that comparatively small space, in  
which there is scarcely room to move  
about."

The lieutenant told me the story  
of an accident to the machinery, as  
a result of which they never expected  
to come to the surface again. They  
were twenty hours under water, and  
during that time the engineer and me-  
chanic worked without a moment's  
rest to repair the break. All hope  
had been abandoned, and the crew  
were breathing heavily in the vitiated  
atmosphere, when suddenly the subma-  
rine began to rise slowly, and when  
it reached the surface all hands went  
back to breathe the fresh air."

"Describing the sinking of the Me-  
dusa, the lieutenant said:

"We were lying outside the harbor  
of Venice in smooth water. The com-  
mander had his eyes glued to the  
telescope. We, of course, see nothing  
and all we do is to carry out his or-  
ders. Suddenly we began to maneu-  
ver. Evidently something is about to  
happen. Only a small part of the peri-  
scope is above the water; then we  
rise again. Presently we can hear  
the sound of another motor in our  
vicinity. The commander shouts the  
order to have our torpedo ready.  
Click and willing hands respond. The  
torpedo is given to fire, and the deadly  
instrument speeds on its way. We  
hear the explosion, but whether we  
are the mark we were, of course, un-  
able to tell, as we quickly turned and  
went away."

## NEW CHARTER FOR PETERSBURG FOLK

PRESENT SYSTEM OF GOVERN-  
MENT WILL BE ABOLISHED  
JULY 1—MANAGER FORM WAS  
ADOPTED.

ST. PETERSBURG, Dec. 30.—By a  
majority of 109 votes, St. Petersburg  
adopted the new charter providing  
for a change in the system of govern-  
ment, which has been in force here  
for the past three years. The new  
charter provides for a commission-  
councilmanic form of government,  
with the executive powers in the  
hands of a commissioner of finance,  
who is much the same as a city man-  
ager in duties and responsibilities.

The present commissioners are said  
to have used their best efforts to ac-  
complish the defeat of the proposed  
charter. The change will go into ef-  
fect on the first of July.

St. Petersburg has for several years  
been under the commission charter,  
the business of the city being trans-  
acted by three commissioners. The  
city has had a couple of recall elec-  
tions and matters under the form of  
government in vogue have proven  
very unsatisfactory. Now that the city  
has the manager form better results  
are anticipated.

## HORSE MEAT FOOD IN NEW YORK CITY

Board of Health Removes Pro-  
hibition Against Sale.

RELATIVE VALUE IS SHOWN

"Ban Not Based on Sound and Scien-  
tific Lines," Says Commission—De-  
clares Horseflesh Brings Higher Prices  
Than Beef in Brussels—Doctors Ap-  
prove.

The sale of horse meat as a commod-  
ity will be legal in Greater New York  
after Jan. 1. As a necessary of life  
the horse will be placed upon the same  
footing with cows, sheep and poultry.

This sweeping action was taken by  
the board of health. The city thus be-  
comes the first in the country, so far  
as known, in which the legal restric-  
tion against horseflesh has been re-  
moved.

"Prohibition of the sale of horse  
meat or the slaughter of horses for  
food is not based on sound or scien-  
tific grounds," declared Health Com-  
missioner Haven Emerson. "Laws of  
this nature have outlived their use-  
fulness. We are living in a different  
age. Conditions have to be judged ac-  
cordingly."

Dr. Emerson expressed the unani-  
mous sentiment of the board of health.  
He declared that in nearly every coun-  
try in Europe the sale of horseflesh for  
food purposes has been encouraged.

### Relative Value Shown.

"The relative value of horse meat  
abroad is shown by the experience of  
our veterinarian, Dr. Ackerman, who  
found in Brussels that horseflesh was  
bringing higher prices than Argentine  
beef," he said.

The board of health will limit the  
sale of horse meat to certified prem-  
ises.

"If there is any demand for horse  
meat certain slaughter houses will  
specialize in it the same as is now  
done with cattle and sheep," said Dr.  
Emerson.

"Will your action have any effect up-  
on a general reduction in the present  
prices of meat?" he was asked.

"This is a remote possibility," he  
answered. "However, people who are  
unable to pay present prices will be  
furnished with an inexpensive and  
thoroughly clean meat."

"In adopting this resolution the  
board of health wished to open the  
way for an inexpensive and healthy  
food supply that could be obtained

over here as well as in Europe. In-  
stead of being sold for their bones,  
which bring little or nothing, old  
horses will hereafter be fattened and  
disposed of for meat.

"While the health department does  
not exactly recommend the eating of  
horse meat, we can see no harm in its  
use. The horse never has tuberculosis.  
It practically never communicates a  
malignant disease to human beings.  
Consequently the strict regulation of  
horse meat would not be necessary, as  
in the case of cows, sheep, poultry and  
other animals."

"There is no medical or sanitary  
reason to prevent equine flesh from be-  
ing edible. With our present method  
of control it will prove one of the safe-  
est meats obtainable. We will take  
special care to prevent its being sold as  
veal or beef. If horse slaughter houses  
are established they will receive the  
same careful inspection as others."

"Horse meat should be very desir-  
able as a food," said Dr. D. R. Ayres.  
"There has been no reason offered to  
prevent its being placed on sale. I  
for one believe the action of the board  
of health will solve a great problem  
which for many years has confronted  
the poorer classes."

### U. S. HAS FOURTH OF GOLD.

Director of Mint Gives Figures—No  
Danger of Undue Expansion.

The United States has gradually ac-  
quired more than a fourth of the  
world's supply of gold money. If Eu-  
rope finally has to sell to America the  
\$5,000,000,000 worth of American se-  
curities which it still holds the United  
States will have gone a long way to-  
ward establishing dollar exchange.

These facts were outlined by Robert  
W. Woolley, director of the mint, in  
taking issue with the prediction of Sir  
George Paish, the British economist,  
that there was danger in the accumula-  
tion of gold in America.

"Sir George is only one of many who  
have predicted an era of wild specula-  
tion if the accumulation of gold here  
continues along at the present rate,"  
Mr. Woolley said. "It is easily con-  
ceivable that the assembling of too  
much of the world's standard of value  
in any one country would lead to a  
general, possibly sensational rise in  
prices, but not all agree that this coun-  
try is near the danger line."

"It's true, however, that the gold  
now in Uncle Sam's vaults will be  
ample for all purposes for a long time  
to come."

"We've experienced a great expan-  
sion of credits, but our national wealth  
also has increased enormously, as have  
our bank clearings and the velocity of  
circulation."

"How much gold have we now?" was  
asked.

"On Dec. 1, including coin in circula-  
tion and bullion and coin in the treas-  
ury, there was \$2,260,687,547, an in-  
crease of \$370,000,243 over July 1, 1914,  
before the war began."

## TO FIGHT TYPHUS IN MEXICAN CITIES

Red Cross and Rockefeller Like-  
ly to Send Expedition.

CARRANZA'S AID IS NEEDED

From 20,000 to 30,000 Cases Now Re-  
ported in the Capital—Other Towns  
Also Stricken—Scourge There as Bad  
as It Was in Serbia Before That  
Country Was Cleaned Up.

The American Red Cross and the  
Rockefeller foundation probably will  
wage a campaign against the typhus  
epidemic in Mexico City, Puebla and  
Pachuca similar to their joint crusade  
against the same scourge in Serbia if  
the Carranza government will accept  
such outside aid and give it aggressive  
government support.

The state department is sounding  
the Carranza government to ascertain  
its views respecting outside help in  
what threatens to be the worst epi-  
demic of disease that has swept Mex-  
ico in modern times. There are now  
from 20,000 to 30,000 cases of typhus  
in Mexico City, according to infor-  
mation received by the state department.

That the Rockefeller foundation prob-  
ably would aid to finance such a Red  
Cross expedition was the opinion ex-  
pressed in New York following a con-  
ference between officials and Dr. Wick-  
liffe Rose, administrative secretary of  
the Rockefeller sanitary commission.

The question whether the Red Cross  
and the Rockefeller foundation will be  
able to join in a campaign against  
Mexican typhus was considered at the  
meeting of the executive committee of  
the Red Cross society. Those who ex-  
pected to attend this meeting are for-  
mer President William Howard Taft,  
chairman of the committee; Major  
General Arthur Murray, vice chair-  
man; Miss Mabel T. Boardman, Sur-  
geon General William C. Gorgas, United  
States army; Surgeon General Wil-  
liam C. Braisted, United States navy;  
Robert W. de Forest, Charles D. Nor-  
ton of New York and Alfred T. White  
of Brooklyn.

### Carranza Support Needed.

The Red Cross, which had undertak-  
en the great work much earlier in Mex-  
ico to relieve starvation in the City  
of Mexico and other places there, with-  
drew several months ago at the re-  
quest of General Carranza, who argued  
that since the Constitutionalist cause  
had triumphed Mexico was able to get  
along without outside aid. According-

ly General Carranza suggested to the  
American state department that the  
Red Cross withdraw, and the state de-  
partment asked the Red Cross to com-  
ply with General Carranza's wish. In  
consequence the Red Cross cannot  
now embark upon any campaign  
against typhus until the Carranza gov-  
ernment permits such aid.

Reports received by the Red Cross  
through the state department indicate  
that the typhus epidemic has become  
almost as serious in Mexico as it was  
in Serbia. Some physicians have died  
from the epidemic. The disease also  
is prevalent in Puebla and Pachuca.

In the state of Oaxaca there is great  
distress, and typhus is prevalent.  
Medical supplies are about exhausted.

The joint campaign of the Red Cross  
and the Rockefeller foundation against  
typhus in Serbia cost about \$125,000.  
The Rockefeller foundation furnished  
\$75,000 of this amount. Dr. Richard

### COUPLE PLAY ADAM AND EVE.

Estes and Wife Start in Bathing Suits  
and Return Clad in Skins.

After living in the Maine woods near  
Bingham as "Adam and Eve" for two  
months Walter F. Estes and his wife  
of Gray, Me., have returned to Boston.  
They emerged from the woods Dec. 1,  
having begun their primitive life Oct.  
1 clad only in bathing suits.

Although they had no weapons of  
any kind when they entered the woods,  
they succeeded in obtaining their own  
food, started fires by rubbing two  
sticks together and constructed their  
own shelters after the weather became  
too cold to sleep in the caves.

Their bathing costumes were soon re-  
placed with suits made from the skins  
of snared animals, which they wore on  
their return to civilization.

from British Columbia a proposal to  
organize a regiment of Canadian Japa-  
nese for service in Europe. One thou-  
sand Japanese who have been natural-  
ized in Canada will be enlisted at once  
under the proposal and sent overseas.

Not only will the ranks be made up  
entirely of Canadian Japanese, but the  
officers also will be naturalized Japa-  
nese. The full strength of the regim-  
ent will be maintained by enlistments  
from time to time.

### EXPLOSIVE BULLETS NOT USED, SAYS RUSSIAN GENERAL

GENERAL IVANOFF CHARGES EN-  
EMIES WITH CRUELTY TO RUS-  
SIAN PRISONERS—GIVES INTER-  
VIEW TO CORRESPONDENT.

(By International News Service Cor-  
respondent.)

Headquarters of General Ivanoff, Dec. 30.—On two occasions recently I have been received by General Ivanoff, commander of the southwestern group of Russian armies. In the course of our discussions he contrasted the natural kindness of the Russian soldier with what he described as the needlessly cruel methods of the Germans and Austrians.

"Never in our army," said General Ivanoff, "has a single explosive bullet been used. From all sides I receive complaints about the employment of these bullets, and I have just been assured that for several days the enemy has used nothing else. You will have an opportunity of seeing some of the

victims of this procedure in our hos-  
pitals.

"The enemy is doing all he can to wound our feelings. He has turned our orthodox churches into stables, even in places where large buildings close to the house of God could have been used for the purpose. If you go to the — corps you will be able from the observation post to see that they are stripping the roof from one of our churches—with what object we do not know.

"Although the Germans are not using explosive bullets—or not so many of them—I am convinced that they are suggesting to their allies this cruel method of waging war. Upon this point we have a very interesting deposition from an Austrian officer who was taken prisoner, and who almost spontaneously made a statement on the subject.

"We knew that some 5,000 Russians had been captured by the Germans. After a time some of them came back and related that as they were being marched away in a long column and were crossing a bridge over the San they encountered a big convoy, the passage of which was hindered by their presence. Thereupon a German officer ordered the prisoners to be thrown into the river, and the order was carried out by the cavalry. Those who managed to swim to the marshy

bank of the river were either sabered or thrust back into the water.

"This seemed to be incredible, but it was confirmed by other soldiers who subsequently joined the first arrivals. But the most convincing confirmation was given by the officer whom I have just mentioned, who, in a sworn statement which you shall see, declared that he was present at this outrage. He ventured indignantly to protest against this cold-blooded murder of prisoners of war, but a German officer replied: 'If you have achieved so little in the course of your campaign you must blame your own weakness; if you do not teach your men to be cruel to the enemy you will never be able to get the utmost out of them.'

"This line of reasoning appears to be to be in agreement with their general mode of thought.

"Another fact has just been communicated to me. An officer of the — cavalry regiment was taken prisoner by the Germans. Soldiers whom you can question state that he was taken alive and unwounded; they saw him led away by two mounted men. Later on, when the Russians advanced after a counter-attack, they found the unfortunate officer dead, his body covered with wounds. I have given orders for his body to be brought here for an examination. A Russian soldier would never do such things. Gradually the Germans will achieve exactly the contrary to what they desire; they will arouse against themselves a hatred which did not exist at the beginning of the war, but which is now growing."

**Might Marry to Reform Them.**  
If girls could see the men they are going to marry before breakfast there would be fewer weddings.—Topeka Capital.

**"Loot" Not Material.**  
A New York lawyer reported that his safe had been robbed, and when asked what the loot was, said his nightshirt, a comb and a brush.

**Weight of Building Materials.**  
Granite or limestone masonry, well dressed, weighs 165 pounds per cubic foot; mortar rubble weighs 154 pounds, dry rubble 128 pounds and well-dressed sandstone masonry 144 pounds.

**A Menace to the Motorist.**  
Lawyer—"Judge, I want you to fine this man who was knocked down by my client's car." Judge—"Fine him? Why?" Lawyer—"He had a nail in his clothes and it punctured a new tire."—Topeka Journal.

### INTERESTING ATTRACTION AT CRYSTAL TONIGHT

Dustin Farnum in "The Gentleman from Indiana," is a Paramount attraction at the Crystal theater tonight. Winifred Kingston, the charming young London actress, Herbert Standing, Howard Davies, Lydia Yeamans Titus and a cast of notables furnish excellent support to Mr. Farnum. Special mention is due Herbert Standing's marvellous impersonation of Fisbee, a down-and-out professor who is reclaimed. It is understood the celebrated English actor modelled his study of the part upon a famous character he knew in his London days who was a familiar figure about the British museum. While Mr. Standing has largely created the Hoosier outcast out of his own skillful imagination, he has nevertheless incorporated several telling mannerisms of the unfortunate original whose befuddled sway hour after hour as he stood poring over the glass cases often caught the actor's attention. The innate gentility in this poor wreck of a man is a keynote which few artists other than Herbert Standing could keep so expertly uppermost, and it produces a rare feeling of sympathy when the best in the man is eventually redeemed and he regains his lost position as a respected member of the community. "The Gentleman from Indiana" is unusually close to everyday life in a number of similar instances.

**Hardly.**  
You cannot expect a man to tell which way the wind is simply because he is a little vain.

**Go On, Rub It In.**  
Probably the dual personality, said to be common to us all, has no more striking illustration than in the case of the candidate before and after his election.—Ohio State Journal.

**Feelings to Be Considered.**  
"Do you know the Ten Commandments?" "Oh, yes," replied Miss Cayenne; "but I shouldn't venture to recite them in a general gathering of our friends. It mightn't be considered tactful."

**Got Their Share.**  
Seven communists in Paris during the 1848 revolution called on the head of the Rounschild house there, reminding him that now all wealth was to be divided and intimated that he better get ready. The wily financier pulled out a pencil, divided his own wealth by the population of France, gave each of the committeemen four francs and bade them good day.

## WILLIAMS HOTEL MANAGER ARRIVES

Belle Gallagher and daughter, Mary Gallagher, arrived Wednesday afternoon from Mackinac Island. Mrs. Gallagher, who had charge of the Williams hotel during the winter of two years ago, will again be in the management of that popular hotel, which she will open for the season on January 1. The Williams is one of the most elegantly furnished hotels of Daytona and the rooms are clean and attractive. During the past season addition was made to the Williams, which included the enlargement of the dining room and other improvements. Mrs. Gallagher owns and has operated for the past 15 or 20 years the Windsor hotel at Mackinac Island, Mich.

Mrs. Albert Bennett, who accompanied Mr. Bennett from Jacksonville to Daytona Monday in their car, returned to Jacksonville Wednesday afternoon by train, rejoining her son, Clarence Bennett, in that city. Mr. Bennett, as previously noted in the Daily News, will remain here for the season to manage hit hotel, the Bennett, on North Ridgewood avenue.

H. K. Brainard writes from Thompsonville, Conn., Dec. 27th, that he expects to arrive in Daytona Friday for the season, accompanied by Mrs. Brainard and their daughter, Miss Bessie L. Brainard, and Mrs. John Bright, of New Haven, Conn. Mr. Brainard and family occupied Dr. P. R. Bennett's house on Orange avenue, just west of Ridgewood, last winter.

Mrs. W. T. Durrett arrived Wednesday afternoon from Louisville, Ky., accompanied by members of her household, and is again occupying for the season Mrs. C. A. Roberts' residence on South Beach street. Mrs. Durrett's son, R. T. Durrett, will join her in this city a week from next Sunday. Mrs. Durrett has many friends here who will be pleased to learn of her return for the season.

Mrs. H. Y. Stillman and little son, Ronald, returned Wednesday evening and are again at their home at the corner of Beach street and First avenue. Mrs. Stillman had been North since some time in September, spend-

ing most of the time with her son, Harding Williams, at Providence, R. I., where he is attending Brown university. Mrs. Stillman also visited in New York City, Boston, Mass., and other points.

Charles Carter and Mr. Hatton, friends of Manley Booe, arrived Wednesday from Wingate, Ind., and will spend the season here. They state that when they left home Monday there was 10 inches of snow and it was still snowing heavily. Messrs. Carter and Hatton have been in California, but this is their first visit to Florida and Daytona. They are very much pleased with this city so far as they have seen it and think it a very beautiful place.

Vere K. Moyer, of Fort Plain, N. Y., who came South earlier in the season and has been in New Smyrna and Jacksonville, came to Daytona Tuesday from the latter city and expects to remain here for the balance of the season. Harold Zimmerman, of Fort Plain, who has visited Daytona in several past seasons in company with Mr. Moyer, is now in Hastings. Mr. Zimmerman has become a benedict since

he last visited Daytona, but Mrs. Zimmerman did not come South with him.

The yachts Peg o' My Heart, Maryland and Pleasure, which has been anchored at the yacht club for some time, left this morning for Miami.

He pointed out the place where Cromwell's cannon balls would have hit the church, only it wasn't built then, and all the usual sights of the place.

Then they ascended the belfry. There the verger drew a long breath, and the visitors crowded round eagerly. Evidently they were to see the sight of sights. "Now, this 'ere bell," said the verger proudly; "a bit remarkable this bell is. It is only rung on the occasion of a visit from the lord bishop, a fire, a flood, or any other such calamity!"—London Mail.

## MEDICAL SOCIETY AFTER A DELAND CHIROPRACTOR

WARRANT SERVED ON DR. W. M. PHILLIPS AT COUNTY SEAT AT INSTANCE OF THE MEDICAL SOCIETY.

The preliminary trial of Dr. W. M. Phillips, a chiropractor of DeLand, was set before County Judge McCrory today, but at the request of Murray Sams, attorney for the defendant, the case has been postponed in order to allow more time to look up the decisions of courts in other states.

The DeLand News says:  
"Dr. W. M. Phillips, DeLand's only chiropractor, was arrested yesterday afternoon on the charge of practicing medicine without a certificate. The warrant for the arrest was sworn out by Dr. Forster, of Hawks Park, secretary of the Volusia County Medical association.

"There are four recognized 'schools of medicine' with licensed boards of examiners in Florida—Allopathic, Homeopathic, Eclectic and Osteopathic. There is no school of chiropractic, and no board of examiners for this 'breed.' Therefore, Dr. Phillips could not secure a certificate authorizing him to practice chiropractic if he desired to do so.

"Dr. Phillips claims that he does not practice medicine, that he is opposed to the giving of medicine, and that there is no law by which he can be legally apprehended.

"Solicitor Hamlin states that some states have held one way and some another and there is no decided precedent by which the case may be decided. It seems up to the presiding judge to make a law, or to interpret the law according to his own preferences."

Solicitor Roy P. Hamlin said to the Daily News over the telephone today that he is of the opinion that the Volusia County Medical association intends to make a test case and the case will probably be carried to the supreme court of Florida.

The bass probably strayed into the basin from Tomoka or Spruce creek while the water of the Halifax was freshened during the heavy rains of the past summer. Mr. Halsey is on his way to Fort Lauderdale to engage in the business of fishing for king fish, and is here temporarily while having an engine, purchased from C. M. McDonald & Son, installed in his boat, the Ruth W.

### TO ENTERTAIN AT CARDS AT THE IVY LANE INN

The notice on page eleven of this issue of a card party to be held at the Ivy Lane Inn was received and printed early this afternoon.

Since then the program of the party has been slightly altered and should read as follows:

Mrs. Mershon, a winter resident, assisted by Mrs. W. W. Foltz, will entertain the guests of the Ivy Lane Inn with a bridge and 500 party on New Year's eve at 8:00 o'clock. There will be nine tables and punch is to be served as refreshment during the evening. Mrs. Mershon has secured original and attractive prizes.

After the card party the guests will stay to see the New Year in and the old year out.

Charles A. Hoitt and party returned recently from an automobile tour to the southern part of the state and the West Coast and are again at the Prince George hotel, where they registered on the 17th of the month. Mr. Hoitt, who is from Baltimore, N. C., says Daytona suits him better than any of the places he has visited during his two-weeks' tour of the state. He is very much pleased with the city.

### If It Pleases Him.

The fellow who jumps out of the frying pan into the fire may be justified in thinking he is hot stuff.
